Fire Alarm

A fire alarm is installed in each hotel apartment not far from the kitchen. It is important to be careful when cooking so that the fire alarm is not activated. The kitchen fan must always be on when cooking - and you should not fry or cook food so hard that it causes too much smoke or steam which can set off the alarm. When the fire alarm goes off, the fire brigade is called automatically. There is no way to turn off the alarm, and only the fire brigade can reset the alarm. Call 010-1789720 and inform us that the fire alarm has been activated.

If the fire alarm goes off due to negligence (eg with cooking, smoking, etc.) in the room, the guest will be charged for the emergency cost (minimum SEK 13000). Extra costs must also be charged to the guest if a fire technician and / or the emergency service is called (minimum SEK 5000).

It is not allowed to dismantle the fire alarms in the apartments. If this is done, the guest will be charged the cost for a fire technician to mount the alarm again and reset the alarm due to technical faults, and for a property emergency if they are called (minimum SEK 5000).
